VARAD BARVE

Chennai, India | varadvbarve@gmail.com | +91 83209 52448 | varadbarve.tech | github.com/varadbarve | linkedin.com/in/varad-barve-143761280

Professional Summary

Computer Science undergraduate with experience in full-stack web development, AI-powered applications, and scalable software design. Skilled in Java, SQL, JavaScript, REST APIs, responsive UI development, and object-oriented programming. Experienced in developing modular applications, integrating AI workflows, and maintaining projects using Git-based development practices.

Education

SRM Institute of Science and Technology — Chennai, India
B.Tech – Computer Science and Engineering — CGPA: 8.28 — *2023 – 2027*

Experience

AI Developer Intern – 1Stop AI (Personifwy) — May 2025 – June 2025

- Developed and optimized 3 machine learning models using TensorFlow for classification and detection tasks
- Performed data preprocessing, feature engineering, and model evaluation on large datasets
- Improved model accuracy through hyperparameter tuning and experimentation
- Applied modular coding practices and collaborative development workflows
- Worked with scalable project structures and reusable code components

Projects

MediAssist AI – Automated Healthcare Follow-Up | *React.js, FastAPI, PostgreSQL, JavaScript, Git*

- Designed and developed an AI-assisted healthcare platform for automated patient follow-up workflows
- Built functionality to process medical reports and generate simplified patient-friendly summaries
- Designed relational database structures for patient, report, and prescription management
- Developed responsive user interfaces using HTML5, CSS3, and JavaScript
- Implemented modular architecture for report processing, AI interaction, and communication workflows
- Applied object-oriented design principles and Git-based version control practices
- Focused on scalability, maintainability, and healthcare safety constraints
- Live Project: MediAssist Live Demo

WhatsApp Direct Messaging App | *JavaScript, HTML5, CSS3, Netlify, Git*

- Developed a responsive web application that enables users to initiate WhatsApp conversations without saving contacts
- Implemented phone number validation and dynamic URL generation for seamless messaging workflows
- Designed reusable UI components and optimized cross-device responsiveness
- Applied modular development practices and structured code organization
- Live Project: WhatsApp Direct Live Demo

Galga Lite – Deployed Web Application | *Python, JavaScript, Vercel, Git*

- Built and deployed an interactive web application with modular architecture
- Structured scalable and reusable code for maintainability and future feature integration
- Developed responsive UI components and optimized overall user interaction
- Used Git for source code maintenance and project version tracking
- Live Project: Galga Lite Live Demo

Text Classification System | *Python, TensorFlow*

- Developed a sentiment analysis and multi-category text classification model using deep learning
- Trained and evaluated the model on 18K+ records with 93% prediction accuracy
- Applied feature engineering, preprocessing, and model optimization techniques
- Improved classification performance through hyperparameter tuning

Technical Skills

Programming Languages: Java, SQL, JavaScript, Python, C++, TypeScript
Frontend Technologies: HTML5, CSS3, Bootstrap, React.js, Next.js
Backend Technologies: Spring Boot, Spring MVC, REST APIs, Node.js, FastAPI
Database Technologies: MySQL, PostgreSQL, MongoDB, Firebase
Tools & Platforms: Git, GitHub, Docker, Vercel, Netlify
Core Concepts: Object-Oriented Programming (OOP), Data Structures & Algorithms, MVC Architecture, CRUD Operations, Database Design, Responsive UI Development, RESTful Web Services, SDLC, Agile Development, Problem Solving, Microservices Fundamentals

Certifications

Oracle Java Foundations – Oracle Learning

Postman API Fundamentals Student Expert – Postman Academy

AWS Cloud Practitioner Essentials – AWS Skill Builder

Artificial Intelligence – IIT Guwahati (Alcheringa)

30 Days DSA Bootcamp – Unstop

SPSS Statistical Data Analysis – SRM

Languages

- English – Professional Proficiency
- Hindi – Native Proficiency
- Japanese – Elementary Proficiency
